Statement of intent

At Horizons Specialist Academy Trust (HSAT), we take our responsibility towards the safety of staff, visitors and pupils very seriously. To that end, we use surveillance cameras to monitor any instances of aggression or physical damage to our academies and its members.

The purpose of this policy is to manage and regulate the use of the surveillance and CCTV systems and ensure that:

- We comply with the UK GDPR
- The images that are captured are useable for the purposes we require them for.
- We reassure those persons whose images are being captured, that the images are being handled in accordance with data protection legislation.

This policy covers the use of surveillance and CCTV systems which capture moving and still images of people who could be identified, as well as information relating to individuals for any of the following purposes:

- Observing what an individual is doing
- Taking action to prevent a crime
- Using images of individuals that could affect their privacy

Horizons Specialist Academy Trust has carefully considered and analysed the impact of this policy on equality and the possible implications for pupils, parents and staff with protected characteristics, as part of our commitment to meet the Public Sector Equality Duty (PSED) requirement to have due regard to the need to eliminate discrimination, advance equality of opportunity and foster good relations.

2. Definitions

2.1. For the purpose of this policy a set of definitions will be outlined, in accordance with the surveillance code of conduct:

- Surveillance – monitoring the movements and behaviour of individuals; this can include video or live footage.

- Overt surveillance – any use of surveillance for which authority does not fall under the Regulation of Investigatory Powers Act 2000.
 - Covert surveillance – any use of surveillance which is intentionally not shared with the subjects it is recording. Subjects will not be informed of such surveillance.
- 2.2. HSAT does not condone the use of covert surveillance when monitoring staff, pupils and/or volunteers. Covert surveillance will only be operable in extreme circumstances.
- 2.3. Any overt surveillance footage will be clearly signposted around the academies.

3. Roles and responsibilities

3.1. The role of the data protection officer (DPO) includes:

- Dealing with freedom of information requests and subject access requests (SAR) in line with legislation, including the Freedom of Information Act 2000.
- Ensuring that all data controllers handle and process surveillance and CCTV footage in accordance with data protection legislation.
- Ensuring that surveillance and CCTV footage is obtained in line with legal requirements.

- Ensuring that surveillance and CCTV footage is destroyed in line with legal requirements when it falls outside of its retention period.
- Keeping comprehensive and accurate records of all data processing activities, including surveillance and CCTV footage, detailing the purpose of the activity and making these records public upon request.
- Informing data subjects of how their data captured in surveillance and CCTV footage will be used by the Trust, their rights for the data to be destroyed and the measures implemented by the Trust to protect individuals' personal information.
- Preparing reports and management information on the Trust's level of risk related to data protection and processing performance.
- Reporting to the highest management level of the Trust, e.g. Board of Trustees.
- Abiding by confidentiality requirements in relation to the duties undertaken while in the role.
- Monitoring the performance of the Trust's data protection impact assessment (DPIA) and providing advice where requested.
- Presenting reports regarding data processing at the Trust to senior leaders and the governing board.

3.2. HSAT, as the corporate body, is the data controller. The Board of Trustees of HSAT therefore has overall responsibility for ensuring that records are

maintained, including security and access arrangements in accordance with regulations.

- 3.3. The DPO deals with the day-to-day matters relating to data protection and thus, for the benefit of this policy will act as the data controller.
- 3.4. The role of the data controller includes:

 - Collecting surveillance and CCTV footage for legitimate reasons and ensuring that it is used accordingly.
 - Collecting surveillance and CCTV footage that is relevant, adequate and not excessive in relation to the reason for its collection.
 - Ensuring that any surveillance and CCTV footage identifying an individual is not kept for longer than is necessary.

- 4.3. The Trust will only conduct surveillance as a deterrent and under no circumstances will the surveillance and the CCTV cameras be present in toilets or changing facilities.
- 4.4. If the surveillance and CCTV systems fulfil their purpose and are no longer required the Trust will deactivate them.

5. The data protection principles

- 5.1. Data collected from surveillance and CCTV will be:
 - Processed lawfully, fairly and in a transparent manner in relation to individuals.

- Collected for specified, explicit and legitimate purposes and not further processed in a manner that is incompatible with those purposes; further processing for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes shall not be considered to be incompatible with the initial purposes.
- Adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed.
- Accurate and, where necessary, kept up-to-date; every reasonable step will be taken to ensure that personal data that are inaccurate, having regard to the purposes for which they are processed, are erased or rectified without delay.
- Kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed; personal data may be stored for longer periods, insofar as the personal data will be processed solely for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes, subject to implementation of the appropriate technical and organisational measures required by the UK GDPR in order to safeguard the rights and freedoms of individuals.
- Processed in a manner that ensures appropriate security of the personal data, including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures.

- 7.6. The surveillance system will not be trained on private vehicles or property outside the perimeter of the academies.

- 9.1. The use of surveillance cameras and CCTV will be critically analysed using a DPIA, in consultation with the DPO.

- 9.2. A DPIA will be carried out prior to the installation of any surveillance and CCTV system.

- 9.3. If the DPIA reveals any potential security risks or other data protection issues, the Trust will ensure they have provisions in place to overcome these issues.

- 9.4. Where the Trust identifies a high risk to an individual's interests, and it cannot be overcome, the Trust will consult the ICO before they use CCTV, and the Trust will act on the ICO's advice.

- 9.5. The Trust will ensure that the installation of the surveillance and CCTV systems will always justify its means.
- 9.6. If the use of a surveillance and CCTV system is too privacy intrusive, the Trust will seek alternative provision.
